

## IronShore Contracting, LLC

Certifications: MBE, DBE/LBE, SBE

[www.ironshorecontracting.com](http://www.ironshorecontracting.com)

**IronShore Contracting** has been a trusted provider of roofing solutions for 16 years, specializing in the installation and maintenance of flat and low-slope roof systems for commercial, industrial, institutional, and retail buildings across Maryland, Virginia, and Washington D.C.

IronShore offers comprehensive roof maintenance services and fabricates all sheet metal work and architectural metal wall panels in-house, ensuring strict quality control and adherence to schedules. IronShore installs and maintains a wide range of roofing systems, including EPDM, PVC, TPO, Modified Bitumen, Coal Tar Pitch, Cold Process, Architectural & Standing Seam Metal Roofing, Metal Siding Systems, and Green Roofs.

**Antonio Cornish** is a Senior Operations Executive with over 17 years of experience across technology, manufacturing, warehousing, construction, and logistics, and has had the chance to lead great teams and work on some exciting projects. Antonio focuses on driving operational efficiency, maintaining high safety and quality standards, and keeping costs in check. He also enjoys developing long-term strategies and fostering a culture of continuous improvement. With an MBA in Global Business from The University of Manchester, Antonio brings a global perspective to what he does, while keeping things practical and straightforward.
